Technology That's Better Together

Experience powerful transaction management and recruiting solutions within the BoldTrail ecosystem that help top performing real estate professionals like you create seamless, efficient operations and ultimately personalize your tech stack and differentiate their business.

KEY BENEFITS:

Business Plan Structure & Organization

A detailed dashboard with meaningful market stats and metrics keeps you informed and in-the-loop with a birds-eye view of your entire organization in one cohesive view so you can make better business decisions quickly and efficiently.

Track & Measure Impact Real-Time

Transparency into your agents' key performance indicators such as active and pending listings and transaction volume. Leverage that data to identify performance gaps and coaching opportunities, driving more productivity and better retention.

Commissions Automation

Create and automate personalized recruiting campaigns through the BoldTrail platform integration to stay connected and top-of-mind with potential recruits.

Data Consolidation

Streamline your CRM, MLS, and contract data, create strategic opportunities for business expansion and performance improvement conversations, and save hundreds of hours per year by eliminating tedious searching for information or duplicate data efforts.

Market Leading CRM Integration

Experience the only Smart CRM-integrated recruiting platform on the market. Add prospects to automated digital marketing campaigns via the BoldTrail platform integration in one click!

Simple and Data Smart!

BoldTrail Recruit puts the data to work instead of its users. Experience a sleek, user-friendly interface designed to simplify primary recruiting and retention use cases.
